ShipMaster WebCrewSystem

Personnel Management System

Selection & Scheduling of qualified personnel has always been a very important aspect of ship management. With the integration of ISM Quality Systems and other statutory requirements, it has become all the more important to have all records related to personnel documented and easily traceable.

A crew manager needs to have all the information related to personnel quickly accessible, as the right personnel have to be sent to the right ships.

The **ShipMaster WebCrewSystem** i.e. web based Crew Management System is developed in close co- operation with manning agents and ship owners. The system is highly modular and can be "assembled" to suit individual requirements. This can be easily adapted to a small crewing agency or to a large multinational ship owner.

The **ShipMaster WebCrewSystem** is developed using latest software technology. The web module allows remote users to view and update the data using internet.

The screenshot displays the 'Shipmaster Enterprise 2.0' web application. The browser address bar shows the URL: `webcrewsys.shipmastersystems.com/PersonnelDatabase/CrewDetailPage.aspx?Kts5Wio7Olo6Nit8aWQ9MTcxNjN8KTs5Wio7Olo6Nis=`. The page title is 'Shipmaster Crew Systems' and the user is logged in as 'SYSTEM ADMINISTRATOR'. The navigation menu includes 'Home' and 'Dashboard'. The main content area is titled 'Crew Details (17163 / Sidhaye Pushkar)' and features a sidebar with options like 'Detail', 'Other Info', 'Documents', 'Exper Matrix', 'Appraisal', 'Experience', 'Schedule', 'Allotment', and 'Briefing'. The main form contains the following fields:

Last Name	Sidhaye	First	Pushkar	Middle	
Appl No.	17163	Status	On Leave		
Rank	Master	Last Ship	Bergina		
D.O.B.	23/11/1983	Place of Birth	Thane		
Sex	Male	Airport	Mumbai		
Nationality	India				
Next of Kin	Prachiti Sidhaye	Relation	Wife		
Leave Start	09/09/2019	Leave End	09/09/2019		
Planned	09/09/2019				
				Active	<input checked="" type="checkbox"/>
				Fit	<input checked="" type="checkbox"/>
				Indos No.	01NL2677
				Requested	09/09/2019
				Rejoin	21/09/2019

At the bottom of the form, there is a status bar with the following indicators: On Leave (green), Certs. Expired (red), Courses Expired (red), Docs. Expired (red), Medicals Expired (red), and Addr. Valid (yellow). The Windows taskbar at the bottom shows the system time as 12:18 on 02-12-2021.

Salient features :**'Dashboard' for quick Access :**

ShipMaster WebCrewSystem has a very simple user interface that allows the user access to detailed information about a crew-member. It also has visual indication to show document validity status.

Web Access :

The system is designed so that it may be easily deployed over Wide Area Network via Internet. Using the Web Access module, remote users can check the crew details or update information. This is particularly useful for ship owners engaging manning agents in different locations.

User Defined Details :

The system has several user defined fields which the user can define during implementation to represent company specific information

Security :

ShipMaster WebCrewSystem has a very secure access control model, that protects information from unauthorized access

Reports :

There are several pre-defined reports such as Crew Experience reports, Crew Certificate Status Report.

We are committed to work with our customers to implement and follow up to achieve optimal utilization of the **ShipMaster WebCrewSystem** in their organization, and we can provide customized modules that will extend capability of the system to fit customer business processes
