## ShipMaster eNoad

The **ShipMaster eNoad** will facilitate in preparing and sending out ship's arrival and departure to / from the US (United States) ports and provide you, the representative of a vessel, with the means of fulfilling the arrival and departure notification requirements of the USCG and Customs and Border Protection (CBP). Using this application, the notice is submitted via electronic mail (e-mail). **ShipMaster eNoad** provides an easy-to-use and efficient method of reporting the arrival or departure required by the United States Costal Guard and other Federal agencies.

The **ShipMaster eNoad** conforms to both the USCG's and the CBP's requirements and is compliant with the specified format for submission, eliminating the need to submit duplicate and/or similar information to both agencies.

**ShipMaster eNoad** is a PC based reporting tool to register arrival and departures, to and from the 'United States' ports. **ShipMaster eNoad** provides facility to user to send the information via e-mail resulting in to avoiding faxes, scanners, and telephones.

The screenshot shows the 'Shipmaster E-NOAD' application window. The menu bar includes 'File', 'Data', and 'About...'. The toolbar contains icons for 'New', 'Open', 'Delete', 'Save', 'Cancel', 'Filter', 'Clear Filter', 'Print List', 'Print Details', and 'Exit'. The left sidebar shows a tree view with 'Main Registers' expanded, containing 'Arrival List', 'Departure List', 'Crew List', 'Non Crew List', and 'Master Registers'. The main area is titled 'Arrival List' and features input fields for 'Voyage Type', 'Port Name', 'Transaction Type', and 'Voyage No'. Below these is a table with the following columns: 'Transaction Type', 'Voyage Type', 'Voyage No', 'Arrival Date', and 'Arrival City'. The table is currently empty. At the bottom, there are buttons for 'ENOAD' and 'ADMIN', and a status bar showing the date and time '17-06-2005 13:50'.

**ShipMaster eNoad** helps you to -

- a. **Register:** All the vessels arrival, departure, call information, last ports information and crew, non-crew details.
- b. **Collate:** All the required, collected information validated through system filter and send it using xml files.
- c. **Prepare Notices:** System generates XML files for arrival and departure as per the required format specified by 'United States Costal Guard'.
- d. **Updation:** For the first time when you generate arrival or departure the status is 'Initial', system allows user to update the existing arrival or departure as an 'Update' status.

## Information Organisation

**ShipMaster eNoad** modules consists of -

- a. **Arrival List** - This Register contains all the 'Arrival' notices that have been created.
- b. **Departure List** - This Register contains all the 'Departure' notices that have been created.
- c. **Crew List** - This Register contains all the crew members those are present on that particular voyage.
- d. **Non-Crew List** - This Register contains all the non-crew members, passengers on that particular voyage.
- e. **Master Registers** - This Register contains various sub-registers, which are standardised as per the USCG's requirements and policies.

The screenshot displays the 'Arrival Detail' window in a software application. The window has a blue title bar and a menu bar with 'File'. Below the menu bar is a toolbar with icons for Delete, Save, Cancel, Print Detail, Copy Notice, Update Notice, and Close. A tabbed interface is visible with tabs for Detail, Additional Info., Certificates, Last 5 Ports, Call Information, Cargo, Crew List, and Non Crew List. The 'Certificates' tab is active, showing three sections: 'Documentation Of Compliance Certificate', 'International Ship Security Certificate', and 'Safety Management Certificate'. Each section contains fields for Issuing Agency, Issue Date, and Expiration Date, along with other relevant details like ISSC Type, Vessel Security Plan, and CSO information.
